

## Join Us!

The Oregon Urology Foundation would like to extend an invitation to you to attend the 2011 Oregon Urology Symposium. This year's symposium is entitled, Case Studies: Urologic Intervention and Treatments. We will be discussing patient treatment plans and the thought process to them.

Our Course Director is Roger M. McKimmy, MD.

If you have questions, please contact Stephanie Kerns, Program Coordinator at (541) 284-5508 or by e-mail at [stephanie@oregonurology.com](mailto:stephanie@oregonurology.com).

### Roger M. McKimmy, MD

#### Adult & Pediatric Urology

After a successful term as a practicing pharmacist, Dr. Roger McKimmy went on to earn his medical degree from Oregon Health Sciences University and train in urology at Albany Medical College in New York. His special interest in pediatrics has led to a prestigious consulting position with the Child Development and Rehabilitation Center.

### What is Oregon Urology Foundation (OUF)?

OUF is a non-profit charitable organization funded by the Doctors of Oregon Urology Institute. Close to 100% of the foundations money goes directly to urologic education and community support.

### What does OUF do?

- Provide support for indigent urology patients and families in our area
- Provide urology research funding not tied to any specific company or product (i.e. prostate cancer research or preventative medicine research).
- OUF provides education and training to all doctors by bringing in experts and mentors to the annual Urology Symposium.

### Mission Statement

The Oregon Urology Foundation is a non-profit tax-exempt organization, governed by an independent board, that exists for three primary purposes: To improve public health by providing or financing free or low-cost urologic and other health care services, to promote excellence in the practice of urologic medicine by supporting education and training in the field of urology, and to support unfettered urologic research at schools of medicine and elsewhere.

Special room rates available for symposium attendees.

### Lunch Speaker

Presentation by **Gabe Canales**, owner of a marketing and advertising firm in Houston, Texas. Gabe was 'accidentally' diagnosed with prostate cancer at 35 by his primary care doctor. He will be sharing his journey as well as some of his findings along the way. "I was recently diagnosed with Prostate Cancer, now the most

commonly diagnosed cancer in America among men. Through this page, my hope is to help raise awareness, educate, post news links and share my own personal discoveries." – Gabe
